Undergraduate Computer Research at Oakland University

UnCoRe

May 15th – July 14th 2017

The Computer Science and Engineering Department at Oakland University invites students to apply to its thirteenth summer of an NSF-funded Research Experience for Undergraduate students. The students selected to participate will be immersed in a research environment under the mentoring of CSE faculty.

This program is a full-time comprehensive educational experience targeted to women in particular. It should be understood by the students that this position is not merely a summer job, but rather an educational experience where the students are treated as junior colleagues.

Participants will receive a stipend of \$5,000 for the ten weeks, meal allowance, and travel subsidy for either travel to and from the program or to attend a conference.

Application Deadline
February 28th, 2017

Program information and
application forms are available at:
<http://cse-reu.secs.oakland.edu/>

Program features:

- 10 weeks full time research program from May 15th through July 14th. Students can not be working or taking classes at the same time.
- Research in teams of 2 under close supervision by CSE faculty and graduate students.
- Variety of research topics available in Secure and Trustworthy Cyberspace.
- Students receive a stipend of \$5,000, meal allowance, and travel subsidy to attend a conference.

Requirements:

- Open to all undergraduate students who are graduating after August 15, 2017 (US citizens and permanent residents) with an interest in Computer Science and Engineering.
- Students will be selected based on GPA, statement of interest, and letters of recommendation.
